

I am called : _____

On the triangle below, write 2 similarities and 1 difference for each side. For example, on the “z-score” and “z-test” side, you will explain 2 similarities and 1 difference between those two ideas. Please do that for each side of the triangle.

After you have your own ideas, find 3 people (one for each side) that has a different idea and copy their idea.

In the middle of the triangle, write a summary of how all 3 concepts are similar & different.
